

Strong Hold From Return Type [Understanding]

1. Void Return Type

IncDec Print

2. Integer Return Type

Find sum till N

Factorial of a Number

Find Fibonacci Number

3. Int-Void Return Type [Func Included]

Print Prime Numbers Till N

Generate Fibonacci Sequence

4. Int Return Type ; Passing more Args [Func Included]

Power

GCD

LCM

Kth Symbol in Grammar

5. Void Return Type ; Passing more Args [Func Included]

Print Prime Factors

Bit Manipulation and Recursion

Similar Questions	Difficulty Level
1.Power of Two	Easy
2.Power of Three	Easy
3.Power of Four	Easy
4.K-th Symbol in Grammar	Medium

Basic-Math and Recursion

Similar Questions	Difficulty Level
1.Fibonacci Number	Easy
2.Pow(x, n)	Medium
3.Count Good Numbers	Medium
4.Count Collisions of Monkeys on a Polygon	Medium
5.Maximize Number of Nice Divisors	Hard

Strong Hold From Return Type [Understanding]

1. Int Return Type ; Passing more Args [Func Included]

1. Is array sorted

2. First Occurrence

3. Last Occurrence

4. Print all Occurrence Index

5. Binary Search

6. Bubble Sort

7. String to Int

2. Void Return Type ; Passing more Args [Func Included]

1. Print array without Loop

2. Int to String

3. Joseph Problem

LeetCode Que - [String , Recursion]

Similar Questions	Difficulty Level
2. Special Binary String	Hard
3. Integer to English Words	Hard
3. Find Kth Bit in Nth Binary String	Medium

Combined : String , Stack , Recursion

Similar Questions	Difficulty Level
1.Decode String	Medium
2.Basic Calculator	Hard
3.Basic Calculator IV	Hard

Recursive Tree : Void return type , Passing more than 1 args:

Similar Questions	Difficulty Level
1.TOH	Medium
2.Print Subsets recursively	Medium
3.Permutation with spaces	Easy
4.Permutation with Case Change	Read It
5.Letter Case Permutation	Medium
6.Print N - Bit binary numbers having more 1's than 0's for any prefix	Medium
